

MUDr. Aurel Dobiaš, Ph.D. – works as an Assistant Professor at the Department of Laboratory Medicine and as a resident physician at the Department of Gynecology and Obstetrics, Faculty Hospital Trnava. He teaches Anatomy, Pathophysiology, Healthcare-Associated Infections, Microbiology, Clinical Microbiology, Clinical Propedeutics and Fundamentals of Prevention. He is an active investigator in several projects focused on the vaginal microbiome and human papillomavirus. In clinical practice, he specializes in urogynecological surgery and surveillance of healthcare-associated infections. During his doctoral studies, he focused on the issue of microbial contamination of ultrasound probes and their potential role in the transmission of healthcare-associated infections. His current research continues to address vaginal dysbiosis.

Born: 1992

Ph.D.: 2025
