

Mgr. PhDr. Katarína Pinčáková, Ph.D. – works as an assistant professor at the Department of Laboratory Medicine and as a biomedical scientist at the Hematology Department of the University Hospital Trnava. He teaches the courses Diagnostic Methods in Hematology and Transfusion Medicine, Seminar for Bachelor's Thesis, and Seminar for Master's Thesis. He is currently also the Coordinator of Students' Professional Laboratory Practice and contributes to managing the department's website. As a part of her research area, she mainly focuses on the field of hemostaseology. In this direction she closely cooperates with the Clinic of Neurology, Faculty Hospital Trnava and SMU. In the center of her attention are primarily patients with acute ischemic stroke.

Born: 1993

Ph.D.: 2022
