

**Mgr. Lenka Michalikova, Ph.D.** - assistant of professor and administrator of the Department of Laboratory Medicine. She works as a laboratory diagnostician in microbiological laboratory at AnalytX s.r.o.. She teaches biostatistics, seminar on bachelor and diploma thesis, conducts exercises on subjects Microbiology I. and Microbiology II, Genetics and Investigation Methods in Genetics. The research area focuses on the analysis of antibiotic resistance at regional level. Through the HOSPITAL-ENVIRO-REZ study, it is monitoring the situation of antibiotic resistance in environmental isolates of bacteria from hospital Health care facilities in the Slovak Republic. She is a member of the Czechoslovak Society of Microbiology (CSSM).

Born: 1989

Ph.D. : 2016
